DESIGN

Cricket Pants are made from medium weight polyester. It is complimented with spandex to allow free movement stretch to the traditional hard wearing polyester material, which means they are perfect for sliding in the outfield. Like the shirts, they can be made in traditional white or sublimated to the customers' requirements. These are offered fully sublimated or with breathable mesh panels sewn in complimented with flat Lock or 3D stitching detail. We can supply cricket pants to you without the legs being hemmed so that your players can adjust them to best suit their own requirements. We can manufacture cricket tops and pants produced from our patterns and incorporate your design and logos.

CYCLING UNIFORM

ELEVATE YOUR GAMING STYLE

CYCLING - JACKET

INFORMATION

Made with high quality waterproof, windproof and breathable fabric our custom cycling vests and jackets are as functional as they are comfortable. Hidden zips ensure your custom design isn't obscured, and flatlocked stitched seams with Aero-max fabric panels allow breathability. Developed by cyclists for cyclists, our custom jackets and vests have everything you need for riding performance and comfort.

FEATURES

1. Reflective trim.
2. Hidden zippers.
3. Back storage pockets.
4. Wind resistance front panel.

INFORMATION

Have you noticed the pro riders wearing special Racesuits in time trials? We have, and now we make the same style skinsuit made from a special wind tunnel-tested performance Aero-max fabric developed in Korea, the AMX Speed Suit is a must for any serious time trial or track rider.

FEATURES

1. Sub 4 drag.
2. Superb leg grippers.
3. Hidden zippers with ultra flex.
4. Unlimited number of colours.
5. 4-Way stretch Aero-max or European chamois – Male & Female fits available.

CHAMOIS

SILICON LEG BANDS

SPANKY

FEATURES

1. Full sublimation or cut and sew panel construction.
2. Polyester Lycra or Nylon Lycra fabric.
3. Leg gripper silicon elastic bands.
4. Body mapped side panels.
5. Reflective trim.

FRONT

BACK

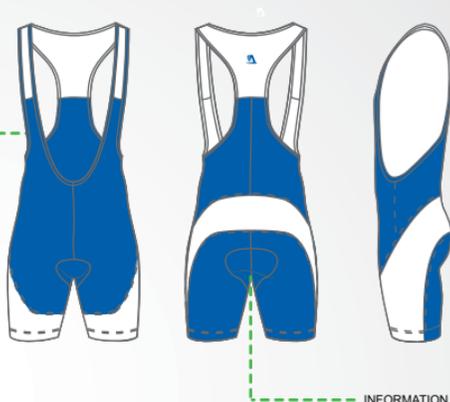

SUIT

CYCLING - BIB

FEATURES

1. Lycra material.
2. Elastic Interface.
3. Reflective detailing.
4. Mesh bib straps.
5. Silicone leg gripper.

INFORMATION

This set of cycling bib shorts combine a flexible fit and breathable surface to craft a comfortable cycling accessory that help to drive performance.

The bib shorts are constructed using Lycra, which offers a fully flexible design allowing a wide range of movement when riding, granting an exceptionally comfortable fit that is supportive without being restrictive.

This design is further bolstered by the addition of 'Elastic Interface', a padding system integrated within the base of the bib shorts that grants an unequalled level of comfort. Together with silicon elastic leg cutting and moisture wicking fabrics this garment is really easy to justify.

TOP & JACKET

FEATURES

1. Cut and sew panel suits.
2. Front or back option zip openings.
3. Stock solid dyed materials complemented with sublimation panels.
4. 3D spreader stitching detail and flatlock contrast hems.

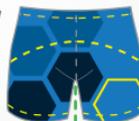

Our technical aero-max fabrics use nano engineering to embed the fibre to naturally conduct heat away from the body, keeping the user cool.

The cross-section fabric construction enhances moisture wicking properties.

This highly breathable fabric also contains carbons that are anti-bacterial.

-----CROP TOP, SINGLET & SPANKYS -----

FEATURES

1. Standard colour fabrics complemented with contrast stitching detail.
2. Use one of our styles or we can reproduce your current style.
3. All performance fabrics are Korean manufactured.
4. All branding printed to avoid drag.

TRIATHLON - SINGLET VEST

The ultimate in high-performance! Our Tri sports uniforms are sleek in design and have superior moisture management.

FEATURES

1. Front hidden zippers
2. Higher front neckline to reduce drag
3. Flat lock seams for increased comfort
4. Two Elastic back pockets, slanted for easy access

PERFORMANCE AT IT'S BEST

Fabric: Aero Max flat cell-mesh: Stretch cell-mesh creates a cool environment between skin and fabric.

Aero-max fabric features unique construction designed to reduce surface friction and improve performance.

The nylon spandex blend allows for powerful stretch and recovery, while resisting penetration and drag in the water.

SUITS & RUNNING SPANKY

FEATURES

1. Engineered fuel pockets with hydrodynamic construction for low drag in water.
2. Zone construction featuring mesh panel inserts for airflow and breathability.
3. Flat seams for increased comfort and low profile fit.
4. Front zip for extra ventilation to beat the heat.

FEATURES

1. Leg gripper silicon elastic bands
 2. Flatlock & 3D spreader stitching detail.
 3. Perforated forward panel for ventilation
 4. High-end EURO-Formula EF European chamois
 5. Anatomical contoured 4-way stretch construction
 6. Antimicrobial top surface layer, soft brushed finish
 7. Designed for race day yet durable to use for training
 8. Two layers open cell foam;
- One layer closed cell foam for long distance riding protection

ATHLETICS
